Create and archive SAP forms - without SAP know-how

Webinar by kgs and TeamWork gives concrete "do-it-yourself guide" for template creation and archiving

Neu-Isenburg, October 18, 2023 - Experts from TeamWork and kgs will explain how uncomplicated and fast the creation of a document, its integration into SAP and audit-proof archiving can be on October 25, 2023, at 11 a.m., in the free webinar "Selfmade".

Mapping a document lifecycle does not have to be complicated, even in the SAP environment. Thanks to the cooperation between kgs and TeamWork, it can even be implemented quickly and easily without dedicated SAP knowledge. That's why the next webinar from kgs will focus on the many possibilities offered by TeamWork's DocBuilder. It will show how DocBuilder, which is fully integrated into the Word interface, helps to automatically create SAP-capable forms without the need for SAP developers or programming skills. Webinar participants will also learn how these forms can be integrated into SAP and easily archived with tia®.

The interaction between TeamWork and kgs not only generates synergies, but also reduces costs and effort, which has a positive impact on day-to-day business.

Interested parties can register now at: Selfmade! Create and archive SAP forms without SAP know-how. (kgs-software.com)

KGS Software GmbH

KGS Software GmbH, headquartered in Neu-Isenburg near Frankfurt am Main, has been the digital archive specialist for top companies worldwide for over 20 years. Data and documents from SAP as well as documents from other leading applications are migrated and archived using high-performance, lean software. Under the brand "tia®" - the intelligent archive - the archive manufacturer has been uniting all kgs product modules into a common vision of the intelligent document archive since 2020. tia® stands for autonomous archiving, is connectable to any applications, storage solutions and cloud technologies and offers companies the single point of truth (SPoT) for accessing documents. kgs has been certifying ArchiveLink® and ILM interfaces for SAP worldwide since 2005 and is a global SAP Value Added Solutions Partner. Also, the tia® CMIS interface was officially certified by SAP in 2022 as the first in the market.
