Neu-Isenburg, August 6, 2024 - The long-standing partnership between KGS Software GmbH and the consulting and IT service provider NTT DATA Business Solutions is entering the next phase. Together, they want to support companies even more intensively in the management of their archive data, which often comes into focus in the context of migration projects. The joint agenda therefore includes the webinar [“Dream team for lean and cost-effective archiving”](#) and an appearance by kgs at NTT DATA Business Solutions' [Transformation NOW!](#) event.

When it comes to archiving SAP documents, many companies face the challenge of implementing a lean archive landscape. This question can arise when a DMS/ECM system turns out to be oversized, the introduction of SAP S/4HANA is imminent or a cloud-capable archive with the CMIS standard is required. The intelligent archive solution from kgs can also play to its strengths in a migration scenario, as it helps to categorize and “clean out” data before it is moved to a new ERP system.

Katharina Gerber, Senior Marketing Communications Manager, KGS Software GmbH: “The partnership with NTT DATA Business Solutions is very important for both our customers and for us. On the basis of this cooperation, complex projects at well-known companies and groups can be implemented even more smoothly and successfully. We would like to share the take-aways from these projects with other companies that are currently facing the challenge of an SAP migration.”

# press release

Benny Schröder, Head of Development & Delivery, KGS Software GmbH and Olaf Heyme, Head of ECM Germany Platforms & Integration at NTT DATA Business Solutions, reveal some of their joint learnings in the [webinar](#) “Dream team for lean and cost-effective archiving”, which will take place on August 14, 2024 at 2 pm.

At [Transformation NOW!](#), which NTT DATA Business Solutions is organizing in Bonn on 18 and 19 September 2024, KGS Software GmbH will present the range of services offered by its platform and use practical examples to show the added value that results when a company sets up its archiving landscape in an innovative and agile way.

## KGS Software GmbH

KGS Software GmbH, headquartered in Neu-Isenburg near Frankfurt am Main, has been the digital archive specialist for top companies worldwide for over 20 years. Data and documents from SAP as well as documents from other leading applications – for example MS-SharePoint – are migrated and archived using high-performance, lean software. Under the brand "tia®" - the intelligent archive - the archive manufacturer has been uniting all kgs product modules into a common vision of the intelligent document archive since 2020. tia® stands for autonomous archiving, is connectable to any applications, storage solutions and cloud technologies and offers companies the single point of truth (SPoT) for accessing documents. kgs has been certifying ArchiveLink® and ILM interfaces for SAP worldwide since 2005 and is a global SAP Value Added Solutions Partner. Also, the tia® CMIS interface was officially certified by SAP in 2022 as the first in the market.
